

Cornish Crosses - Understanding the evidence

C3529084

with Andrew Langdon

In Cornwall there are over six hundred medieval stone crosses and fragments from the late ninth century through to the Reformation. This course will introduce these iconic and rustic monuments. Their age, original function, decoration and context will be explored, along with their geographic and decorative groups. The course will identify the many types of Cornish cross including, churchyard, wayside and boundary crosses together with their related sculpture.
